

MORAN INSISTS ON HAVING SAY

Contractor Makes Vigorous Protest Against Action of Board of Public Works.

OPEN BIDS AFTER HOUR NONE OF CONTRACTS IS AWARDED.

Table with 2 columns: Bidder Name, Amount. Includes J. D. Hanley, J. W. Moran, J. W. Melin, etc.

The board of public works endeavored to apply the gag rule to P. J. Moran last evening, but was not successful, for Mr. Moran finished his speech.

In the advertisement for bids for the curbing, guttering and grading of paving extension No. 18, it was distinctly stated that all bids must be in by 8 o'clock of the evening of Aug. 14.

Before the bids were opened, J. D. Hanley protested vigorously against any bid being received after the hour named in the advertisement, but Chairman McMillan overruled his objection.

At about 8 o'clock the board opened the bids, and Melin's was found to be the lowest as the schedule above indicates.

Then Mr. Moran made a speech. "I have never before seen a bid received after the time stated in the advertisement," said the veteran contractor in his usual emphatic style.

"I have bid on work for the past twenty years, and have had experience with the council, board of education, board of works, county commissioners, the state government and the United States government, but I have never seen such a thing occur."

The advertisement says 8 o'clock and I demand that it be adhered to. If you deviate to the extent of half an hour, anyway, I certainly object to the proceeding.

"No one has been prejudiced, as far as I can see," replied Chairman H. G. McMillan.

"I don't think we should listen to any objections, as we have already decided to consider the bid declared Mr. Barlow."

"Well, I am going to talk, anyway," answered Moran, now thoroughly angry.

"We don't want to listen to you," said Barlow.

"You will have to," came back Moran. And the board listened while Mr. Moran reiterated his former statement.

Then Hanley broke into the limelight. "I was not the lowest bidder, or next to the lowest," he said. "I have bid on work in many states and never before have I seen a bid considered after the time stated, especially when it came in thirty minutes late."

"We don't care what other people do," answered Barlow. "We are going to consider the Melin bid."

Then Mr. Moran talked some more, despite the efforts made to stop him. "None of the bids were awarded," and the board will hold a meeting this afternoon to consider the propositions submitted.

ART BUILDING CONTRACT

New Structure at Fair Grounds Will Be Permanent, Substantial and Will Cost \$6,000.

The contract for the erection of the art building at the fair grounds was yesterday let to H. C. Lefter, the winning bid approximating \$6,000.

The building, which will adjoin the frame structure used last year for the fruit exhibit, will be a substantial and permanent one, constructed of brick, stone and cement.

The plans for the building provide for a structure 75 by 36 feet. In addition to the large room where the products of Utah artists will be exhibited, the building will contain several ante-rooms, the secretary's office, the president's room and a ladies' room.

It will be connected by a short covered passage with the fruit exhibit building. The lighting arrangements are such as to display the works of art to the best advantage.

DANCING SCHOOL.

Odeon academy. Term for adult beginners commences Monday, Aug. 17, at 8 p. m. Ind. phone 4300.

BISHOP PRESTON'S ESTATE.

Valued at \$40,000 According to Widow's Statement.

The estate of William Bowker Preston, for many years presiding bishop of the Mormon church in Utah, is valued at \$40,000 according to a petition for letters of administration filed in the district court yesterday by the widow, Harriet A. Preston.

The petition states that Bishop Preston also owned land in Wyoming, but the value or amount is not given. Of the property here \$32,000 consists of real estate. Mrs. Preston asks that the letters be issued to her, Lyman R. Martineau and Oscar W. Moyle. There are seventeen heirs, including the widow, four children and twelve grandchildren.

Open Every Saturday Night

For the convenience of depositors the Savings Department is open from 6:30 to 8:30 o'clock p. m.

The Safe Deposit Department is open from 8:30 a. m. to 8:30 p. m.

OFFICIAL VISIT TO SALT LAKE

C. Kioke, Japanese Consul General, Is Received in Style by Countrymen.

KOREANS ARE NOT PLEASED

C. Kioke, consul general of the Imperial Japanese government at Washington, D. C., is in Salt Lake on an official visit. The consul general is accompanied by his secretary, Gunzo Kumabe, and several distinguished Japanese, who with the consul general are on a tour through the United States studying the condition of the Japanese. The distinguished visitors came to Salt Lake yesterday from Ogden, where they have been for a few days.

At the station the Japanese representatives were met by a number of the leading men in the local Japanese colony under the leadership of E. D. Hashimoto. Motor cars were provided and in these the visitors were taken to the Knutsford hotel, where semi-official Imperial consular headquarters have been established.

Makes Official Calls. During the day the consul general called on the governor, the mayor and other state and city officials. In the afternoon he was the guest at a dinner at the Commercial club, and in the evening addressed the Japanese of Salt Lake at a gathering in Eastman hall on State street.

The Imperial representative of the Japanese government spoke in the tongue of the inhabitants of the Oriental Isle, hence his oratory was not appreciated as much by the white people present as by his countrymen. It seemed to please the Japanese, however, for at its conclusion there were loud cries of "Banrai, banrai," which Japanese parlance means pretty nearly everything from "Hurrah for the W. C. T. U." to "Let's have another drink."

In elaborate English that was filled with many flattering adjectives the consul general informed his interviewer that there was great love on the part of the Japanese people for the Americans, that a most honorable peace existed between the two nations and that it would continue to exist for a long time.

Mutiny of Koreans. The banquet in honor of the Japanese consul general did not pass off without some little friction despite the suavity and interchange of courtesies which were exchanged in the banquet hall. All of the under cooks, dishwashers and minor employees of the Commercial club kitchen are Koreans, and they regard the Japanese about the same light as the Kishineff victims regard a snotia of Russian cosaks.

When the chef of the Commercial club announced the menu which would be prepared to satisfy the inward craving of the consul general and his admirers he was greeted with a flood of language, no word of which he could understand. The chef, a German-American, bore unmistakable ear marks of revolt and displeasure. The chef is a gentleman of polite address and phlegmatic disposition, but he is not a native-born American.

He was in his kitchen he can put in force that discipline dear to the heart of the German emperor, as the time approached to prepare the luncheon he cocked his cap over frowning brows like a helmet, seized a potato masher for a scepter and delivered his commands:

"Thus will it be. Dere iss it. De soup, de roast, de entree. Do it."

The luncheon was served on time and without a hitch, but it was noticeable that many of the Japanese guests showed exceedingly poor appetites, especially when the dishes were presented to them which might conceal a small amount of pounded glass. Pounded glass is a Korean dainty which removes the eater without trace after some days of the most exquisite suffering.

POSSIBILITIES IN CONCRETE

Expert in Industry Is Studying Situation in Western States. Pleased With Salt Lake.

The concrete industry is in its infancy in the west, according to F. H. Ives of the Foot Concrete Machinery company of Chicago, who is stopping at the Knutsford.

"I was surprised," said Mr. Ives last evening, "to find that so little concrete is being used in these parts. In the east it is being used entirely. Recognizing that this industry will grow considerably during the next few years, and that I am making a tour of the states to size up the situation."

I want to say for Salt Lake that it is one of the best and most hustling cities I have ever visited. There seems to be boundless opportunities here and in Utah for the making of money, and I predict that in ten years your city will double or treble its size. People are coming to you from all over the country, and in the twenty states I cover I have not seen a place where the prospects are more promising."

Mr. Ives will leave for Denver this afternoon.

OLD FOLKS AT WANDAMERE

Highly Enjoyable Day Passed by Veterans of Salt Lake Stake and Their Friends.

The old folks of the Salt Lake stake to the number of several hundred were shown a good old-fashioned time at Wandamere yesterday. The occasion was the annual outing of the old folks of the stake, and the committees in charge of the affair had so perfectly arranged the details of the day's celebration that all guests were escorted to their homes, all of them happy and grateful to the committees and management of the resort for the pleasant day.

Today the Oregon Short Line people will be at Wandamere. The Short Line ball team will play the Wandamere team this afternoon, which recently defeated the Bountiful nine, which in turn "put it over" the Occidentals, a state league team.

ARE PROPERTIES OF GREAT VALUE

Coal and Iron Deposits in Southern Utah to Be Tapped by Railroad.

RESOURCES ARE IMMENSE

CORPORATIONS HAVE HAD A COVETOUS EYE ON REGION. A letter from Peter Adler of Los Angeles, president of the Harmony Coal company, whose properties are located near Cedar City, in this state, says that the development work on the properties will begin within the next few weeks. The coal deposits owned by the company comprise bituminous beds as well as semi-anthracite deposits.

President Adler states in his letter that Charles Immann of Los Angeles, who is also a member of the board of directors of the Harmony company, has met with gratifying success in his effort to enlist eastern capital in the railroad which will be built between Lund and Cedar City, and that the financial affairs of the Utah & Southwestern, as the road will be called, are now in such shape that construction work will be started before winter.

The first section of the road will be built between Lund and Cedar City, but it is the intention of the company to continue the road through to St. George and to tap the enormous mining and agricultural districts of southern Utah. The proposed road will make available the enormous iron deposits of Iron county, which, while their ultimate value has been acknowledged for years have been unavailable on account of expensive transportation.

These iron mines were for a time under option held by the Colorado Fuel & Iron company and have been watched carefully by the United States Steel corporation for years. The owners have never been able to close a satisfactory deal for the properties, as the steel corporations have felt secure in refusing their offers, so long as the iron ore was not within reaching distance of railroad.

The opening of the coal deposits will mean that the iron ores for which that region has always been famous will be converted into a marketable product right on the ground and that the excessive freight charges which have rendered them valueless will be absorbed.

LOCAL BRIEFS

HENRY J. GREEN of the Associated Press office returned yesterday from a vacation trip to Colorado. While hunting in the Gunnison country, one leg was crushed by the fall of his horse. He passed several days in the hospital at Salida and is still wearing a plaster cast on the injured limb.

THE EMPLOYEES of R. F. Redman entertained about 500 of their friends at Salt Lake last evening. It was Redman day, and the horses were given a half holiday.

AT THE REGULAR MEETING of the Salt Lake Federation of Labor, the only business was the acceptance and installation of new delegates from the Blacksmiths, Brewery Workers and Pressmen's unions. The meeting adjourned to Tuesday, Aug. 25.

BRIGADIER ASHLEY PERBLES, who was one of the first members of the Salvation Army to come to Salt Lake, will speak Sunday at Salvation Army hall. Brigadier Perbles was formerly stationed at Chicago, and he is in command of the Rocky mountain division. He came to Utah for the first time twenty-one years ago.

THE VACANCIES in the board of governors of the Utah Savings & Trust company, caused by the resignations of James Jack and George Reynolds were yesterday filled by the election of William A. Rossiter and Louis T. Cannon.

THE COUNTY COMMISSIONERS yesterday appointed H. C. Bloedorn as an extra plat maker in the office of the county recorder. He will be paid \$3 a day.

WILLIE PARKER, aged 11 years, was yesterday committed to the state industrial school by Judge George E. Barnes. He was charged with the murder of a juvenile court for general incorrigibility.

FORREST WILSON and Oswald Ferris, incorrigibles from the state industrial school, whom the authorities desire to have sent to the penitentiary, were before Judge Armstrong yesterday and after evidence had been given by Superintendent H. H. Thomas of the school and H. S. Joseph of the board of managers, further hearings were continued until Sept. 1.

SMOOT STATE IS CHOSEN

Independent Candidates for Places on Republican Ticket Have Small Chances.

FEDERAL BUNCH CONTROLS

ORDER OF BUSINESS WILL FAVOR CHOICE OF DICTATORS. Many of the officeholders aspiring for positions on the Republican state ticket are disgruntled over the discovery of what they believe to be a neat plan of the federal bunch to control all of the nominations at the state conventions, notwithstanding the efforts of the independent and insurgent delegates to the contrary. Even though the independents controlled a large portion of the delegates to the convention, the plan of the federal dictators, if successful, would leave them in control of the nominations.

The Smoot machine has perfect control over the present state committee which will make all of the preliminary arrangements for the convention, including the appointment of the temporary officers and the committees. The committee on order business will decide in which order the nominations for the different offices will be made. Under the machine plan the offices will be so deftly distributed through the state that the independent candidates will be out of the running long before the nominations for the office to which they aspire comes before the convention.

For example the first office to be considered by the convention will probably be that of congressman. In spite of the fight in Cache county the renomination of Joseph Howell seems assured. With the congressional nomination given to Cache county, E. W. Robinson and any other Cache county aspirant for office will be effectively shut out of the race on the ticket. William Spry, who is charged to Tooele county, will be nominated for governor with practically no opposition, and Ivor Sax, the independent aspirant for state auditor, who comes from Tooele county, stands no show of the nomination, as he is not on the list.

The Smoot ticket and the order in which it will be selected was said yesterday to be:

For Congressman—Joseph Howell of Cache. For Governor—William Spry of Tooele. For Secretary of State—C. S. Tingey of Sanpete.

For State Treasurer—H. P. Myton or J. P. Johnson of Kane. For Attorney General—George Halverson of Weber.

For Justice of the Supreme Court—W. M. Myron of Sevier. For State Auditor—Walter Calderwood of Summit.

Superintendent of Public Instruction—A. C. Nelson of Sanpete. Realizing that they are up against what seems almost a brace of state dictators, the independent candidates are doing everything in their power to break the power of the machine. In Cache county the insurgents are organizing a campaign for the nomination of Joseph Howell. The campaign is effected before the election. Howell is almost sure to lose the delegation from that county, but he has a chance of being elected in Cache county which is a transparent disguise for the anti-Howell movement. A test of the strength of the machine will be the ousting of Salt Lake Tuesday by the Taft club of Logan. Nothing incendiary is intended at the ousting, but it is believed that only those opposed to the machine will attend and the numerical strength of the opposition to the dictators will determine whether the Taft club of Logan is for anyone to beat Howell.

The opposition to Spry is of the past and it seems probable that no other name will go before the convention for the nomination for governor. For a time Sven O. Nielson of Fairview was a candidate, but his name was dropped because of his machine strength of the opposition to the dictators.

Major M. A. Breeden aspires to succeed Chief Justice McCarthy on the supreme bench, but he has little chance of success. Ivor Ajax of Tooele and I. M. Fisher of Salt Lake are opposing Walter Calderwood, the incumbent, for state auditor. A. C. Nelson, the present state superintendent of schools, has no opposition.

THREE CONVENTIONS PLANNED. Democratic State, Judicial and County Primaries at Same Date.

As soon as the Democratic state committee fixes the date for its state convention, the Democratic committees for the Third judicial district and for Salt Lake county will arrange to hold their own state primary conventions at dates as near as possible to that of the state convention. The primaries for all three conventions will be held on the same date, about two weeks prior to the conventions. The arrangement is made to suit the convenience of the Democratic county committees. In Salt Lake county the Democrats will vote for three sets of delegates for the different conventions on the same date.

The American county committee has fixed the date for the county convention of that party at September 28 in the Salt Lake temple. The convention will be called to order at 10 o'clock in the morning. The primaries for this convention will be held on Sept. 22 at 8 o'clock in the evening. As a basis of representation the committee decided to allow one delegate for every twenty votes or major fraction thereof cast in each district of the county.

WHAT IS WRONG?

Many People in Salt Lake City Are Asking That Question of Late.

Within the last few weeks more people in Salt Lake City than usual have been complaining of the annoying tickling in the throat, stoppage of the nose, coughing spasms, raising of mucus, droppings in the throat and offensive breath, and have asked themselves, "What is the matter?"

The trouble comes from catarrh, and unless they take immediate steps to remedy their condition, the disease will increase and spread through the delicate mucous membranes that line the air passages, resulting in chronic disease.

At the first symptoms of catarrh, Hyomel should be used. F. C. Schramm sells it under a guarantee to refund the purchase price of \$1.00 for the complete outfit to anyone who is not satisfied with the results. You certainly can afford to use Hyomel under an offer like this. Get it now and be cured of catarrh.

For sale by F. C. Schramm, drug list, corner First South and Main streets. "Where the Cars Stop."

EXTENSION OF TIME IS ASKED

Davis & Heuser Say They Have Encountered Difficulties in Their Contract.

Davis & Heuser last evening asked the board of public works for an extension of two months' time in which to complete sewer extension No. 186. This extension is located on the north bench and runs from Third Avenue to Sixth Avenue and from A street to Canyon road. The cost is \$25,000, and work was begun July 1, with the understanding that the sewer should be completed by Oct. 31. The board did not act on the request, but continued the matter until its next meeting.

The firm claims that unexpected difficulties have been encountered, such as springs and consequent cave-ins, which have necessitated much additional work. In regard to the protest of the Utah Gas & Coke company concerning the change of grade on First and Second avenues, which made it necessary for its pipes to be re-laid, the city attorney reports that the city could not be charged with this expense.

A communication was received from Fairbanks, Morse & Co. complaining that it was impossible to place its pumps in the pumping station at the terminus of the intercepting sewer because of a leakage in the concrete pit. The Campbell Building company was blamed for this leakage, and an order was issued to the company to put an end to the trouble. It was also discovered that the company is having difficulty in putting in the wood stave pipe connecting the gravity and intercepting sewers, and that the work might not be finished for several months.

In addition to this estimates in favor of various contractors to the amount of approximately \$100,000 were approved.

the county for A. O. Jacobson, candidate for long term county commissioner, in 1908. Since the election in 1906 the county has been re-districted so that there will be some difficulty in determining just how many delegates from the new districts is entitled to. The official call for the convention will be issued next week.

MEETS WITH FAVOR. Bryan Club Given Encouragement by Large Number of Supporters.

That the Bryan club of Salt Lake City will be a great success is already an assured fact. When it was learned yesterday that arrangements to organize the club had been completed a large number of Bryan supporters communicated with the organization committee and pledged their support. At the first meeting of the Bryan club to be held next Monday evening at 8 o'clock in the Knights of Columbus hall in the Jennings block, 21 West First South street, it is expected that there will be a gathering of several hundred men who will become members of the club.

The constitution and by-laws, with the qualifications for members and other details of the organization, will be adopted at the first meeting and at the same time officers will be chosen. In the meantime a committee is preparing an outline of a provisional constitution and by-laws, as a suggestion for those present at the meeting to act upon. It is proposed that a membership fee of \$1 be charged, which will be devoted to the national campaign. The state upon payment of \$5 has arrived in Utah and that anyone who will support Bryan and Kern may be a member.

no matter what his stand on local politics may be. The suggestion has been made that the officers of the organization consist of a president, vice president, secretary and treasurer, and that these officers will be chosen from among the members with two or three members to be chosen at the meeting to constitute an executive board, with power to appoint sub-committees and to have active charge of the campaign in the state.

ALLEGED SWINDLER HERE

Matthew McB. Thompson Said to Be Making Money With Spurious Masonic Initiations.

Word was received yesterday by Christopher, District Secretary of the Masonic Grand lodge of Utah, that Matthew McB. Thompson, who has been conferring spurious Masonic degrees upon the foreigners of several of the coal camps throughout the state upon payment of \$25 has arrived in Salt Lake. Thompson was at one time a member of the King Solomon lodge No. 17, of Montpelier, Ida., but disappeared for a number of years. Some time ago he appeared at Saratoga, Wyo., declaring that he had just returned from a trip abroad and that he was fully authorized to confer any Masonic degree up to the thirty-second.

Since that time he has traveled through the coal camps of Utah and Colorado, where he has made victims of the ignorant foreigners who desired to become affiliated with the Masonic order.

An effort will be made by the grand lodge of Utah, Wyoming and Colorado to secure the passage of laws which will make it a felony for anyone to use or display the emblem of any order for purposes of misrepresentation.

Our carpet cleaning is guaranteed. NATIONAL HOUSE CLEANING CO.
